Happy Summer! See you next fall

Vacation time comes closer every day and already your *School Bulletin* friends are busy planning new adventures to share with you next fall.

In the 30 issues starting in September, you'll meet a dazzling array of birds and animals. *Bulletin* writers will report firsthand from Israel, from Florida "lion country," even from deep in a Michigan salt mine.

We would like to hear about your adventures, too, and we hope you'll share them with us.

This is your final issue of this school year. When we return we want you aboard to explore more of the wonders, peoples, and places of the big world around us. If your *National Geographic School Bulletin* subscription ends with this issue and if it hasn't been renewed, you may use the coupon on the opposite page.

Have a great summer holiday!
